Calling all governmental public health professionals! 🚨

We need YOU to complete a survey telling us about the key tasks you perform in your job! Your confidential insights will help identify the essential functions of the workforce and support the creation of tools to improve education, recruitment, and retention.

The survey is open from May 15 - July 31, 2024.

This survey explores 54 job tasks, asking how frequently you perform each one and their importance to your work. Plus, we’ll gather demographic information to better understand the context of who you are and where you work.

Dear [RECIPIENT],

I am writing to inform you about the Governmental Public Health Job Task Survey, open from May 15 – July 31, 2024. The survey is funded through the CDC’s Public Health Infrastructure Grant (PHIG) and will be conducted in Y2 (2024) and Y5 (2027).

It is very important that all members of the governmental public health workforce participate in the survey, and we encourage you to actively promote the survey among your staff.

This website includes more information about the survey, including how results will be shared, how health departments may use the results, other FAQs, and the recording of an informational webinar.

The survey is being coordinated by the Association of Schools and Programs of Public Health (ASPPH) and the National Board of Public Health Examiners (NBPHE) under contract with the Public Health Accreditation Board (PHAB).

Thank you,

[YOUR SIGNATURE]
Dear [RECIPIENT],

Health department leaders request that each of you take the Governmental Public Health Job Task Survey. This survey is part of a national effort funded by the Center’s for Disease Control and Prevention (CDC).

The purpose of the survey is to better understand what tasks people in governmental public health jobs do the most and which tasks they believe are the most important to their work. This information will give our health department – and others across the nation – unique insight into what a wide range of governmental public health jobs entail and what might be needed to best prepare people for and support them in these roles.

The survey is estimated to take between 10 - 30 minutes to complete. It is open now through July 31, 2024.

For more information on the survey, including Frequently Asked Questions, please visit this website.

Thank you for your cooperation,

[YOUR NAME]
In partnership with the Public Health Accreditation Board (PHAB), this work is supported by funds made available from the Centers for Disease Control and Prevention (CDC) of the U.S. Department of Health and Human Services (HHS), National Center for STLT Public Health Infrastructure and Workforce, through OE22-2203: Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems grant. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by CDC/HHS, the U.S. Government, or PHAB.
